

Dear Mrs. Hazard: =

✓ OK

Would very much appreciate the free manual on "planning & planting the home grounds." And I'd like to add, that I never miss one of your programs if I can possibly help it. It's absolutely the "Best" of it's kind! - Thanking you,  
Mrs. Louis H. Rodefeld, 1132 - Drake St.

Dear Mrs. Hazard: While my husband listens to you during his S F quarantine, he is realizing why his wife wants a little radio in the kitchen!

The program Sherby Elmer is going to put on is of especial interest though we do not come under the rural classification. In fact our suburban village home is not so much in need of beautification as a little more digging for garden space and a good spray rig to combat the bugs that infest the fruit trees! However, if there are an abundance of plans for this program, we would like one. I am going to have it announced in my garden club, and hope I can interest a few of my country friends.

Dear Sir: -

Kindly send me a copy of "Sett Plan and Plant the Home Grounds."

I did send for one, but did not get the name correctly  
yours -

Dear Mrs. Hazard,  
Please enroll me in Mr. Elmer's course "Planning and Planting the Home Grounds," which is to start on my birthday. I expect this birthday gift in eight installments to be the most satisfying stimulant to our "way of life" project. I'm taking some "before" snapshots. ~~Would Mr. Elmer care to look me over?~~ We have the problem of big old trees to remove - alas! - because they are ~~not~~ elder and not elm or oak! How to have the joy of living with big trees, yet get the new ones started? How to trim down a big honeysuckle border? We have about 1/2 acre and are ready with pencils + tools. Please send the book. Very truly yours,  
Mrs. Allen D. Ksan
